Simran

.	.	2 x2
.	.	.
8	1	.

Classic Lo Shu square (4-9-2 / 3-5-7 / 8-1-6). Filled cells show present numbers; a dot means missing. xN means the digit repeats.

What each number represents

4 Hard Wood Stability	9 Fire Confidence, Action	2 Earth Emotional Ground

8 Earth Patience, Karma	1 Water Mental Element	6 Yellow Metal/Sky Luxury, Desire

Loshu (Lo Shu) grid compares how birth-date numbers fill a classic 3×3 pattern. Shared strengths and missing numbers can color chemistry style — they do not decide anyone's worth.

Numbers missing in both grids: 3, 4, 5, 6, 9.

Shared gaps can show where the pair may need extra patience or outside support.

Raj Kumar missing: 3, 4, 5, 6, 9.

Simran missing: 3, 4, 5, 6, 7, 9.

Loshu Grid compatibility percentage: 35%

Yoni Matchmaking score

Matchmaking here uses Yoni, the classical measure of physical and sexual compatibility, read from each person's birth star. Treat it as a conversation starter, not a verdict.

Yoni compatibility: 50%

Yoni score: 2 out of 4

What it suggests: Moderate physical compatibility - may need effort to sync. Yoni represents physical and sexual compatibility based on animal instincts associated with birth stars. It indicates the nature of physical relationship and intimacy.

Gentle suggestions:

- Communicate openly about physical needs and preferences
- Be patient and understanding with each other
- Focus on emotional intimacy to complement physical connection

Western Synastry Intimacy Predictions

Western Synastry Intimacy Predictions highlight attraction, pacing, and emotional temperature between two charts. Expect variable expressions of affection under the influence of Mars - Saturn Sextile, with open communication attempts and occasional expressions of affection.

Attraction

With Mars forming a sextile to Saturn, there is a unique blend of assertive and steady energy influencing your connections. This aspect encourages both passion and restraint, lending to a magnetic but measured attraction style. The influence suggests an appreciation for stability even in moments of intense interest.

Pacing

The synastry between Mars and Saturn indicates a rhythm that balances eagerness with patience. You may find that your relationships develop steadily, rather than in rushed bursts. This natural pacing helps in building trust and synchronization with potential partners, fostering comfort over time.

Emotional Heat

The influence of Mars invites sparks and energy, yet Saturn's grounding presence tempers emotional intensity. This creates fluctuations in affection expressions, ranging from warmly open moments to more reserved or cautious phases. Awareness of this ebb and flow can enhance understanding of emotional expressions.

Care

Shared gaps in the Loshu grid point to areas requiring patience and understanding. These subtle shared challenges signal where you might need to bring extra empathy and support in intimate settings. Cultivating sensitivity around these areas can strengthen the feeling of care and connection.

Closing reflection

Chemistry is rarely one note. Where the grids and synastry agree, lean into shared strengths; where they diverge, treat the tension as information rather than a verdict. If something here feels sharp or tender, give it space in conversation. Inclusive, consent-centered language matters as much as any chart signal.
